

Greenfields IRRIGATION DISTRICT

Minutes of a regular meeting of the Board of Commissioners of Greenfields Irrigation District (GID) held on October 10th, 2019 at 7 p.m. Attending were: President Tim Brunner, Vice President Bill Norris, Commissioners Dave Gulick, Chase Brady and Pat Brosten; Manager Erling Juel, Secretary Jenny Gulick, Water Master Dale Sand, Teton County Commissioner Jim Hodgskiss, and Ditch Riders Cory Copenhaver and Steve Lettengarver. Don Davies, GID's Auditor, Water Users Chris Ostberg and Spencer Pearson and Bailly Rapp, Cascade County Conservation District Representative was present upon Tracy's request.

President Brunner called the meeting to order at 7:01 p.m. The first item of business was to approve the meeting minutes from September's Regular Meeting. Commissioner Brosten moved to approve the meeting minutes and Commissioner Norris seconded. All in favor and motion carried. The next item was approving the minutes from September's Special Meeting. Commissioner Norris moved to accept the motion and Commissioner Brady seconded. All in

Warrants totaling \$118,975.59 (\$636.70 reimbursables) were presented for discussion, attached. There was brief discussion about the Steel Etc. warrant being for stem for the guard gate at Willow Creek. Brosten moved to approve warrants and Commissioner Brady seconded. All in favor and motion carried.

Parties Presenting Issues: None.

Contracts to Execute: Gibson Dam Rehab Project IDG-19-0262 Grant closeout form was signed by President Brunner and the Edward Jones Client Authorization Form was signed by all Board members.

Board decided to move right into the #1 item in the Agenda portion of the meeting since Don Davies needed to travel home after addressing the Board.

Agenda:

Agenda Item #1, GID Auditor, Don Davies presented his report for the 2018 Fiscal year to the Board. Davies informed the Board that the dissolution of Turnbull Hydro made a major impact on the end-of-year books. Pension Liability was provided by the State of Montana. Summary Judgement by the Judge in the DNRC lawsuit led GID, GID's accountants and Mr. Davies to believe that a major portion of the income that was recorded the year the state was originally billed for WSC conversion should be written off as uncollectible, approximately \$210,900. Don also informed the Board that next year that would be a new standard imposed that requires a second auditor to review the work of the original auditor, this will be a slight price increase. Motion to approve the audit report was requested by President Brunner, Commissioner Brosten moved to accept the audit report and Commissioner Brady seconded. All in favor and the motion carried.

President Brunner then asked for Bailly Rapp, the Cascade County Conservationist to address the Board. Tracy with the SRWG had asked Mr. Rapp to come and inform the GID Board on the things that the NRCS will be working on in the near future. His goal is to incorporate a focus approached plan that develops partnerships and addresses resource concerns. Last year Montana spent approximately \$15 million in EQIP funds which is a significant drop. NRCS is working to partner with irrigation districts, weed district, forest service, etc. Erling asked if the funding has to be limited for improvements in Cascade County and Mr. Rapp expressed that he felt that he could jump between county lines fairly easily. Also, with the passing of the new Farm bill, Irrigation Districts will be eligible for EQIP funding.

Manager's Report (M.R.) was then read by Manager Juel, attached:

Reservoir and River Levels: See M.R. for Reservoir and River levels. Manager Juel informed the Board that there is much more run-off than usual, with all the early precipitation that we recently received. The snowpack level in the Sun River Watershed level is at 2.5" which is 893% of normal. Above normal temps and above normal precip are expected from now until January and then normal temps with above normal precip are predicted.

Staff Updates: See M.R. for details. Steve Lettengarver is currently out of work due to a planned knee surgery. Russ Barrett is still out and expected to be until after the 1st of next year. Mark Dale has been hired as the new Dam Tender to replace Paul Bergstrom and Travis Schenk will be the new Canal Maintenance person to replace Mark. Erling and 4 employees attended the Montana Dams and Canals conference earlier this week. GID has received a request from Union Representative Jim Stone, regarding upcoming negotiations. Manager Juel asked if 2 or more of the Board members would like to volunteer to be part of the negotiations and it was felt that all Board members would like to be present. November 15th is the date that GID's response to the Union's original requests is due back to them.

GIS, Database and Certification Updates: Water master Sand has been working with Nancy Fry on completing the infrastructure layer. Edge Marketing continues to work on GID's database and we should have a sample database to trial run with generic information. FSID is looking to piggyback on GID's database, so we should receive some compensation for this.

DNRC Lawsuit: See M.R. for details. The State of Montana offered a couple of settlement options and the Board will meet for a special meeting to discuss in the near future.

Farm Unit Operations: 1) Request to move irrigation acres from FU 534 to FU 260 with no change to assessment or irrigation practices. We will revisit in the Agenda portion of the meeting. 2) Second request from Harold Klinker for more assessment conversion. He is leasing FU 597 to Russ Pearson who is irrigating approx.6 acres over assessment and he wants to move some of his current assessment to FU 597. There is extra assessment on FU 594 not being used. Klinkers own roughly 965.22 actual acres but are only irrigating on around 940.79. Harold feels that when he bought the land he was buying this assessment because the Hoffman's believed they had already been approved for the addition of this assessment. We will revisit this request in the Agenda portion of the meeting.

GID Vehicles: GID ordered 3 new pickups, one new water master truck and two ditch rider trucks. Erling and Dale met with 2 heavy equipment sales reps. Both get the feeling that it is better to buy than to lease. We are still waiting for quote from CAT. GID will replace the loader at the beginning of the year. We will clean up the Kobelco and get it ready to sell, as the cost to fix it up would not be worth it assuming the price we can get for it.

Administration Issues and Updates: No updates.

Hydro Updates: See M.R. for details on the opportunity to piggyback with installing the next segment of line upgrades with SREC. Specifics to follow at the next Board meeting but obtaining the easement would be the big bonus to working with them. Erling met with Randy Pinocci at Gibson Dam to discuss the state's potential involvement with the Gibson Dam Hydro project. Tollhouse Energy is requesting that GID sign waivers to say that we were in agreement with Tollhouse that no annual corporate meeting was to be held for the past 2 years. By January 2022 construction must begin on Gibson Hydro or the FERC license will be removed.

Monthly Financials: First installment from Turnbull Hydro was received, see M.R. for details. GID rolled \$200,000 from Edward Jones account into Teton County account as a precautionary measure to cover additional expenditures.

GID Infrastructure Projects: See M.R. for details. Willow Creek Outlet gates update: Stems have been installed and we hope to finish completion on the guard gate next week and begin running water to refill Willow Creek then. Spring

Creek Coulee repairs: Marc Lee is to work with Tracy at SRWG GID will provide labor and equipment but will not head up the project.

O&M Projects: See M.R. for O&M List, but in the Foreman's absence there was no Jobs Completed List provided.

GID Grazing Lease Program: See M.R. for details. Pasture Lease #22 holder wishes to forfeit the pasture lease. We will see if there are any others before we decide to advertise or not.

Miscellaneous: See M.R. for details on MWRA's decision to help defend HB286 with Farm Bureau and Stock Growers Assoc. SRWG is requesting their Fall contribution of \$5,000. Ag Committee Appreciation Banquet is January 17th.

Short-Term and Long-Term to Do Lists: See the M.R. for details.

President Brunner then moved the meeting back into the Agenda portion where we had left off before.

Agenda Item #2, Bill Pearson is requesting to move 5.47 acres of assessment from FU 534 to FU 260. Commissioner Brady moved to accept the request and Commissioner Brosten seconded. All in favor and motion carried.

Agenda Item #3, Discussion was then had on SRS 98 End of Ditch and President Brunner asked for a rundown on how the ditch is operated and run. Water master Sand explained that the GID infrastructure is unable to be metered and needs to be replaced with a simple box structure which will help with runoff at the end of the ditch. GID is working on this solution.

Agenda Item #4, Harold Klinker requested that the Board reconsider his request to obtain additional WSC conversion acres. The Board felt that there was no new information to reconsider and had already made a decision to deny this request. Commissioner Brosten moved the decline his second request and Commissioner Gulick seconded. All in favor and the motion was denied.

Agenda Item #5, Gibson Hydro Electric Company consent forms to agree that GID did not wish to hold an annual corporate meeting in 2017 and 2018 were then discussed. The Board does not agree with all aspects of the consent forms and due to the lack of progress and effort that Tollhouse Energy is putting forth, GID will not sign the forms but will have Manager Juel draft a letter stating these facts for the Board to approve. Commissioner Brady moved to accept this decision and Commissioner Brosten seconded. All in favor and the motion carried.

Manager Juel informed the Board that there was a request from a water user who has a drain ditch and a canal ditch on his property and has sprayed both ditches for the past 3 years and is asking for reimbursement in the amount of \$112/year. Board determined that a prior agreement should have been made if reimbursement was to be sought.

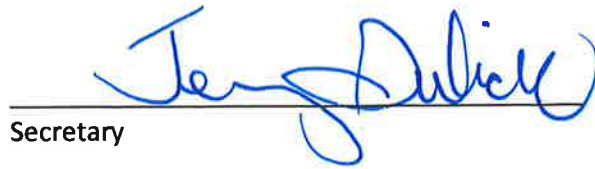

PUBLIC COMMENT: Tracy Wendt with SRWG and Al Rollo are both absent from the meeting.

- 1) Teton County Commissioner Hodgskiss informed the Board that the County had hired a new road superintendent, Alan Gagne. As of November 1st, there will be no Ag Agent in Teton County as he is moving to Lewis and Clark County. County received the engineering report for repair costs for building the new road shop that previously burned down and should see funds the middle of next week to begin work on the shop. County received \$70,000 from the state for road repairs. OPA is operating in the courthouse basement 2 days per month.
- 2) Manager Juel informed the Board that SRWG's Fall Water Management meeting will be October 24th.

Commissioner Brosten made a motion to adjourn the meeting and Gulick seconded the motion. All in favor and meeting is adjourned at 9:04 p.m.

President

Secretary

Recap of Board action during this meeting:

- Board approved Don Davies' Annual Audit Report for the 2018 Fiscal Year
- Board approved Bill Pearson's request to move 5.47 acres of assessment from FU 534 to FU 260
- Board denied Harold Klinker's 2nd request for additional WSC conversion assessment acres
- Board denied Tollhouse Energy's request that GID sign consent forms for 2017 and 2018 agreeing that it did not wish to hold annual Gibson Hydro Electric Company meetings.

AGENDA FOR: Regular meeting Thursday 10th, 2019 at 7:00 PM

CALL TO ORDER:

Public Comment: Prior to each agenda item...limited to 5 minutes...any Board action necessary will be addressed at the next regular meeting.

APPROVE MINUTES: September 10th, 2019 Regular Meeting and September 19th, 2019 Special Meeting

REVIEW AND APPROVE BILLS FOR PAYMENT—Approve and sign September warrants and recap list.

PARTIES PRESENTING ISSUES: NONE

CONTRACTS TO EXECUTE: Gibson Dam Access Road Rehab Project, IDG-19-0262 Grant
Edward Jones Client Authorization Form

MANAGER'S REPORT

AGENDA:

- 1) Finalize the Fiscal Year Audit with Don Davies presenting, reports provided
- 2) Bill Pearson request to move 5.47 acres of assessment from FU 534 to FU 260
- 3) Discussion on SRS 98, End of Ditch
- 4) Harold Klinker's request for additional WSC conversion
- 5) Gibson Dam Hydroelectric Company, LLC Consent Forms

PUBLIC COMMENT

- Alan Rollo
- Teton County Commissioner, Jim Hodgskiss
- Sun River Watershed Group, Tracy Wendt

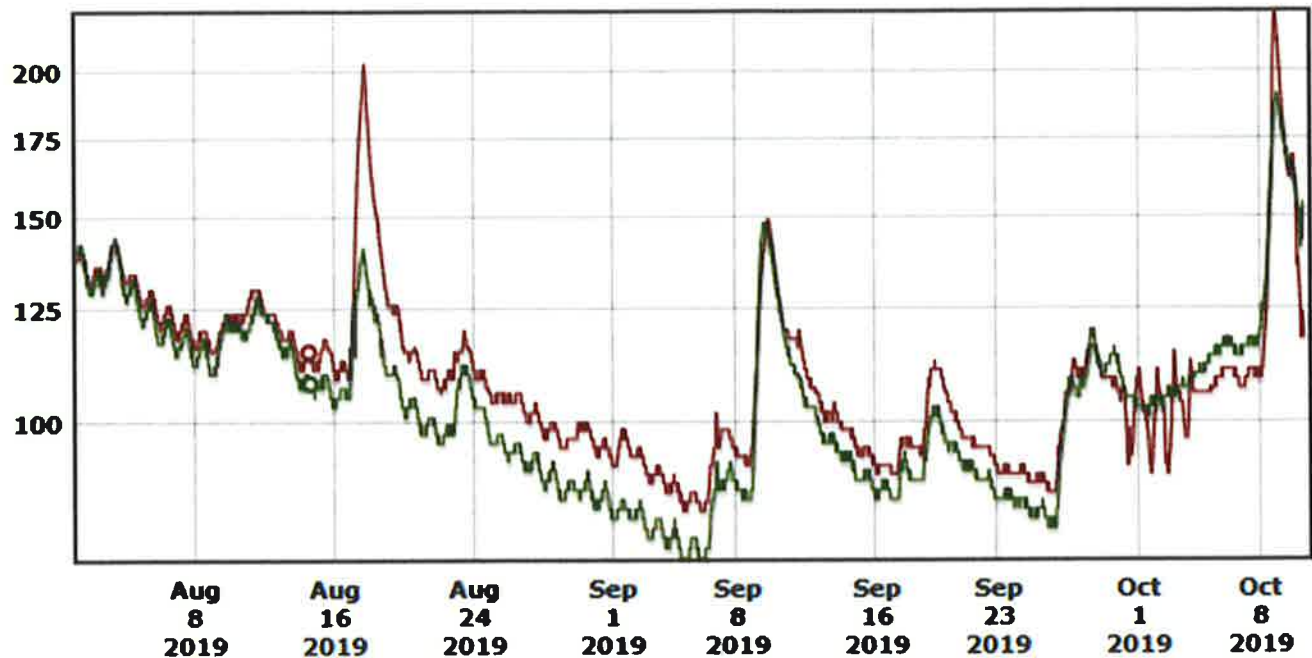

TABLED ITEMS:

To: GID Commissioners
Jenny Gulick, GID Board Secretary
From: Erling A. Juel, P.E., District Manager
Subject: Manager's Report 10/10/19

1) RESERVOIR & RIVER OPERATIONS AND PROJECTIONS AS OF 10/08/19

- A. Reservoir operations and levels over the last 5 days were:
 - Gibson Reservoir: 9,231 Ac-ft, 9% of Full and 53% of Normal
 - Gibson Inflows Range: varying from 240 to 400 cfs, 110 to 181% of Normal
 - Gibson Outflows: basically, trying to match the inflows, recent, slight bump
 - Pishkun Res.: 11,830 Ac-ft (Active), 60% of Full and 100% of Normal
 - Willow Creek Reservoir: Still Empty
 - Willow Creek Releases: 40 to 48 cfs recent precip bump
- B. Snow Pack Levels readings are:
 - Badger Pass Snow-Water Eq. = 4.7"
 - Mount Lockhart Snow-Water Eq. = 2.0"
 - Waldron Snow-Water Eq. = 1.2"
 - Wood Creek Snow-Water Eq. = 1.0"
 - Gibson Reservoir Watershed = 2.5", 893% of normal per (USBR)
- C. National Climate Prediction Center now predicting above-normal temperatures and above-normal precipitation for October through December. January to March is predicted to be normal temps with slightly above-normal precipitation.

2) GID STAFF UPDATES

- A. Steve Lettengarver had knee surgery and will be out for a couple of weeks.
- B. Russ Barrett still recuperating from his wound and will be out for several more weeks.
- C. Mark Dale will be the new Gibson Dam Tender position; effective when Paul retires in December.
- D. Selected Travis Schenk as Mark's replacement for a canal maintenance worker. Four employees were interested.
- E. Two new Ditch Riders Ryan Peace and Shad Beck are on-board and are working out well.
- F. Open house party for retiring workers went well.
- G. The "End-of-Season" staff party also went well.
- H. Thanks to Jenny for coordinating and making both events successful.
- I. Had a couple of staff attend MT Dams and Canals conference on Oct 8th and 9th.
- J. Received a request from Union Rep. Stone regarding upcoming negotiations. Need two GID Commissioners to help me negotiate and address the Teamsters' demands.

3) GIS MAPPING, PLATS, DATA BASE & CERTIFICATION UPDATES

- A. Continuing to work on the infrastructure layers. Water Master Sand helping out with field locations of infrastructure changes.
- B. New Data Base provider working on new system. Jenny, Nancy and I had a progress update meeting this morning and appears the program development is going well. Hope to have a working version within a month. Fort Shaw has expressed interest in having access to our data base system once we have worked the bugs out. They would help reimburse GID for the development costs.

4) FARM UNIT OPERATIONS

A. Request to Move Irrigation Acres from FU 534 to FU 260

1. Landowner wishes to reassign 5.47 acres from FU 534 to FU 260 so FU 260.
2. The purpose would be so that assessment matches irrigation practice.
3. There would be no change in irrigation practices or the total number acres receiving GID water, therefore no assessment or water delivery issues.
4. **Review handout and address during Agenda portion.**

B. Request to Revisit Harold and Shirlie Klinker Request for more "conversion assessment"

1. Landowner is willing to reassign some unutilized assessment for another Farm Unit but would still want to convert 5 to 10 acres to support the on-going irrigation. The additional acreage would be converted from Water Service Contract that was Board approved but not followed through on by Hofflands.
2. Mr. Klinker states that he has interviewed Mike Hoffland and Tom Swabe and feels everyone thought and acted as though the 2nd WSC had been finalized, even though it wasn't.
3. If the irrigation of the NE corner of FU 597 is terminated and unused assessment from FU 594 is reassigned to FU 597, then an additional 2.24 acres is needed. This additional acreage would come from FU 474.
4. If the NE corner is not given-up, all the unutilized acreage from FUs 594 (9.13 Ac) and 474 (5.77 Ac) as well as another 1.31 acres from somewhere else is required.
5. Globally, the Klinkers own 965.22 acres and we show that only 940.79 acres are being irrigated.
6. **Review handout and address during Agenda portion.**

5) DNRC STATE LAND WSCs

- A. Visiting with attorney to evaluate GID's appeal strategy going forward.
- B. Recently, the State has offered a couple of "settlement" options for the Board to consider. I'll share the emails and allow you to review. We can then have a special meeting later to discuss.

6) GID VEHICLES & HEAVY EQUIPMENT

- A. Still planning on converting the new ¾-ton pickup to service truck to replace Richard's current truck once cash flow improves. Mills not interested in buying back pick-up.
- B. Ordered the 3 pick-ups previously discussed and approved.
- C. Transport trailer "melt-down" ended up costing approximately \$5,000. Still waiting on reimbursement from MACO.
- D. Have met with two heavy equipment sales reps regarding information on pricing and funding opportunities. Have another meeting with a 3rd vendor next week.
 1. Strict lease with option to buy is not an option because this route is too expensive. Looking at other financing options.

2. Again, looking to replace, in-order:
 - i. Another slightly larger wheeler-loader (First of the year)
 - ii. Kobelco excavator, has electrical issues (Next Fall)
 - iii. Cat 307 excavator, worn-out and has electronic problems
3. May fix up Kobelco and sell right away.

7) OFFICE IMPROVEMENTS & GENERAL ADMINISTRATION

- A. Nothing new to report.

8) HYDRO UPDATES

- A. Arnold Coulee LOPP –
 1. Opportunity to participate and piggyback with next segment of line upgrades being proposed by SREC. Next segment will be a relocation and over 4 miles of upgraded line. Will have specifics for next meeting.
- B. Gibson Hydro –
 1. Met with Public Service Commission Commissioner Randy Pinocci at Gibson Dam to discuss opportunities to get project on-line whether low cost funding or State legislation participation would be possible. Will be working with Mr. Pinocci to see if State involvement is possible.
 2. Toll House requesting GID sign waivers to not hold annual corporate meeting. **To be addressed under the AGENDA portion.**
 3. I requested info (again) asking about the status of our Project wrt FERC. Finally got a better summary of our overall status. Looks like the construction start deadline is January 2022.
 4. Opportunity to also finalize several easement upgrades in conjunction with line upgrades proposed for Arnold Coulee project.

9) MONTHLY FINANCIALS & 2019 BUDGET

- A. Received a year-to-date income distribution from Turnbull (through July) in the amount of approximately \$127,666. Should get another distribution for August and for one week of September.
- B. Account receivables for September was \$2,960.
- C. Accounts payable for September totaled \$138,654 with another \$64,781 for payroll.
- D. Audit Report 2018 finalized.
- E. With additional expenditures that we realized and additional health insurance costs, I rolled \$200k from David Jones account into general fund at Teton County as a precautionary measure.

10) GID INFRASTRUCTURE PROJECTS

- A. Johnson Drop & Mill Coulee Replacement
 - 1) Nothing new.
- B. Willow Creek Outlet Gates
 1. As of today, the stem was installed. Still need to reassemble the gate actuator and the then adjust stem guide brackets and install stem guides.

Hopefully that will be completed middle next week and then we can start running water.

2. Successfully straightened the old stems and will reuse them on the regulating gate side; saving us some money.
3. Our outlet control structure still holding,

- C. Willow Creek Reservoir Flood Damage – Memorial Day Event
 1. Still waiting direction from USBR to fix slope failure on stabilization berm as well as the armored section downstream of the emergency spillway.
- D. Willow Creek Feeder Canal Rehabilitation
 1. On hold till next summer
 2. Need to write a letter to Neal Family regarding rehab work next summer
- E. Beaver Creek Bridge –
 1. Work done
 2. Finishing closeout report to get remainder of the grant
- F. J-Waste Way Facility –
 1. Sending summary letter to USBR to protect remaining funding (+/- \$97K).
 2. Finished topo survey and have preliminary drawings that I'm reviewing.
 3. Need building shortly thereafter.
- G. Lower GSC Canal Rehab. –
 1. Hoping to implement fix before next Spring.
- H. Spring Coulee Repairs Below J-Waste Way
 1. Waiting to coordinate fieldwork with Sun River rep and local landowner.
 2. GID will provide labor and equipment.
- I. GS-62 Chute Replacement
 1. Reviewing preliminary drawings and ready to order pipe.
 2. Must implement fix before next Spring.
- J. Sun River Bridge Replacement
 1. Nothing new.

- K. SRS 71 Check Replacement and Reregulation
1. Decided to pursue RRGL planning grant and then submit for the WaterSmart grant.

11) GID O&M PROJECTS

- A. See O&M Foreman's list for this month.
- B. Growing list of Fall/Spring repairs will put strain on maintenance workload and budget.
1. Punch list items on Johnson Drop and Mill Coulee Check
 2. Lower GSC cement ditch conversion to pipeline.
 3. Willow Creek Gate repairs.
 4. Spring Coulee Headworks replacement.
 5. Upper Turnbull Chute walls rebuild.
 6. GS-62 Chute replacement.
 7. GSC Pipeline repair at Parker's.
 8. Finish Cold Storage Conversion.
 9. Willow Creek Spillway Rebuild
 10. Willow Creek Stabilization Berm Regrading
 11. Matt Fischer Ditch to Pipeline conversion.
 12. Tunnel #3 Floor and Outlet.
 13. Disconnect utilities on old GID house.
 14. Willow Creek Feeder Canal Rehab. (pending landowner approval)
 15. Need to keep chipping away at the hydro projects.
 16. Tear down old GID house
 17. Need to adopt a serious canal cleaning program

12) GID GRAZING LEASE PROGRAM

- A. Range rider still conducting next round of pasture inspections.
- B. Awaiting a status report from Range Rider
- C. Pasture lease holder on #22 wants to forfeit their lease. Small, 5 AMU parcel just NW of Fairfield.

13) MISCELLANEOUS

- A. Attended MWRS Fall Board meeting in Polson. MWRA is going to help defend (intervene) HB286 with Farm Bureau and Stock Growers Associations.
- B. SRWG requesting their Fall Contribution \$5K
- C. AG Committee Appreciation Banquet, January 17th **What's the Board's thoughts?**

14) SHORT-TERM TO DO LIST – OCTOBER

- Make progress on Willow Creek outlet gate repairs.
- Order pipe for SRS-124-11 & GS-62 chute projects.
- See repair list

15) LONG-TERM TO DO LIST – NOVEMBER & ON

- Negotiate with Teamsters
- Make improvements to SRS canal road at the new Boadle Road bridge
- See repair list for other items
- Develop a 5yr/10yr Strategic Plan (Conservation & Management Plan)

16) GID MANAGER'S CALENDAR

- See attached October & November Calendars.

NEXT GID BOARD MEETING IS NOVEMBER 12th @ 7PM

Jenny Gulick, Office Manager
P. O. Box 157
Greenfields Irrigation District
Fairfield, Montana 59436

Dear Jenny,

Enclosed are seven (7) copies of the GreenFields Irrigation District financial and compliance report for the year ended October 31, 2018. The copies are for:

- 5 - Board of Trustees
- 1 - Clerk (and a PDF copy)
- 1 - Newspaper

The Montana Single Audit Act (MCA 2-7-521) requires districts to send a copy of the audit report to a newspaper of general circulation in the district's area and to also send a publication statement to the newspaper.

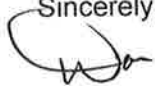

A sample publication statement is enclosed..

In accordance with the audit contract and MCA 2-7-514, I am also sending the following copies of the audit report to:

- 1 - Department of Administration, Local Government Services Bureau - PDF copy only
- 1 - Teton County Attorney

It was a pleasure working with you, as well as others at the District.

Sincerely,

Donald Nolan Davies, P.C.

Board of Commissioners
Greenfields Irrigation District
Fairfield, MT 59436

I have audited the financial statements of the basic financial statements of the Greenfields Irrigation District for the year ended October 31, 2018. Professional standards require that I provide you with information about my responsibilities under generally accepted auditing standards and, *Government Auditing Standards*, as well as certain information related to the planned scope and timing of my audit. I have communicated such information in my letter to you dated August 24, 2018. Professional standards also require that I communicate to you the following information related to my audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices,

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by District are described in Note 1 to the financial statements. I noted no transactions entered into by District during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the Government's financial statements were:

- The liabilities relating to the recording of the pension liability is computed and provided by the State of Montana. I evaluated the key factors in determining that it is reasonable in relation to the financial statements taken as a whole.
- The valuation of the investment of Turnbull Hydro was estimated using the income approach. This transaction was the result of the dissolution of the Greenfields Electric, Inc. in January of 2018. See note 4 to the financial statements in the audit report. I evaluated the key factors in determining that it is reasonable in relation to the financial statements taken as a whole.
- The allowance for uncollectible accounts receivable for the water service conversion contracts was revised after the summary judgement by the District Court. This revision increased the estimated allowance from \$15,100 to \$226,000. The judgement was in favor of the State of

Greenfields Irrigation District – Request for Changes

Date of Request 9/17/19 Requested by Bill Pearson

Request Type

- Split Farm Unit
- Combine Farm Unit
- Reassign Assessed Acres from Farm Unit to another

Summary of Request

move 5.47 acres assessment
from FU 534 to FU 260
to match farming practice
