

Greenfields

IRRIGATION DISTRICT

Minutes from a regular Greenfields Irrigation District Board meeting held on Tuesday, August 10th, 2021, at 7:00 P.M. Those in attendance: President Tim Brunner, Vice President Bill Norris, Commissioners Chase Brady and Dave Gulick. Commissioner Pat Brosten was not present. District Manager Erling Juel and Board Secretary Jenny Gulick were also present, along with GID Employee Eric Mayer, Tracy Wendt with Sun River Watershed Group, and Lee Signalness with FSID.

The meeting was called to order by President Brunner at 7:03 P.M.

Approve Meeting Minutes and Monthly Warrants: The first item of business was to approve the minutes from the July 13th Regular Meeting. There were no discrepancies. Commissioner Gulick moved to approve the minutes with Commissioner Brady seconding the motion. All in favor and the motion carried. Next the Board needed to approve the July warrants. Manager Juel pointed out that the Coyle Law Firm warrant was for roughly 8 months of legal fees. Commissioner Brady moved to approve the warrants and Commissioner Gulick seconded. All in favor and the warrants were approved.

Parties Presenting Issues: Water User Terry Krause has voiced his intention to file a claim with our Insurance Agency regarding loss on production he incurred due to an issue on Drain N-N-1. Brief discussion was had on the specifics.

Contracts to Execute: No contracts needed signed, but Manager Juel gave a brief overview on the 2 contracts that President Brunner had recently signed for Planning Grants on A Drop and the Survey on the PSC.

The next item of business was the Manager's Report:

Reservoir and River Operations: See M.R. for full details. Gibson is 26% full, that is about 83% of normal for this time of year and it is dropping at around 3 feet per day. We are looking at the last day to run Gibson being next Friday and running Pishkun for another 2 days past that. The latest update on expected climate prediction: We can expect above normal temps and below normal precipitation through October, but now it is predicted that normal temps and slightly above normal precipitation is expected for Nov-Jan. It was then decided that we would run the drain season through September 1st, but will allow no diversions or pump backs, in an effort to maintain ground water tables.

Water Rights: Preliminary Decree for Basin 41K is still ongoing. GID filed objections on some senior water rights on Willow Creek above the Reservoir. President Brunner expressed his desire to have an accounting for the water that is diverted by Broken O, as well as upstream water users. Our Water Rights attorney is working on a summary of water rights downstream from Willow Creek Reservoir.

GID Staff Updates: See M.R. for details. Weed Foreman, Stan Fry, is still out on Workman's Compensation after his ATV accident and looking at being back just after Labor Day. We hired 2 new ditch riders: Chaz Keller began work on July 29th and Tony May is scheduled to begin on August 23rd. 2 GID employees contracted COVID-19 and one is still home recovering. We have terminated the seasonal mower.

GIS Mapping, Plats, Database & Certification Updates: Reclamation decided to pull the \$25K grant to cover GIS mapping efforts. Office Manager Gulick sent out usage cards today for all water users over 75% of their allotment used. Nothing new to report regarding the GID landowner who filed a marital status discrimination complaint in-

regards to the 960-acre limitation policies. See the M.R. for further details. The Board needs to be thinking about raising the O&M rate for the 2022 water season, as we are well under the state average of \$30.65 for 2020.

Farm Unit Operations: Nothing new to report for any major farm unit operations but included find handouts for FYI on 2 new pivots being put in for Open Gate Ranch.

DNRC State Land WSCs: Jon Metropolitous wants DNRC's attorneys to come visit with GID Board to help them understand the wording issues with the agreement between GID and the State.

Willow Creek Feeder Canal Lawsuit: See M.R. for full details. Manager Juel met with U.S. Army COE rep in the field on August 5th to determine whether the WCFC is or is not a "relocated stream" thus requiring COE's jurisdictional involvement. Requesting an irrigation infrastructure exemption. Sent drawings to Reclamation for their review.

GID Vehicles & Equipment: GID is replacing 2 ditch rider pick-ups and will place order with Dirkes when the 2022 Fleet program opens up. We are planning to replace the over-sized buck on JD excavator with smaller version having a thumb, as well as replacing the small CAT excavator. See M.R. for long-term replacement list.

Office & Admin: Mark Bigler's trial has been rescheduled for December 6th. State is looking for someone from GID to provide testimony.

Hydro Updates: Ted Sorenson has yet to start work on drawings for the Arnold Coulee LOPP, due to the fact that there is another hydro site ahead of us being worked on. Hopeful to receive them by the end of August. On-going discussions with BOR's grant manager regarding our \$2M grant. Expecting a grant agreement by end of August. Manager Juel is arguing with the MT Department of Commerce, Board of Investments whether or not GID is eligible to receive InterCap loans. We got our attorney involved and will not be submitting an application later this month. We submitted an application to receive ARPA funds on July 15th and should hear something back sometime this month. See M.R. for further details. Nothing new on the penstock, but Board discussed a possibility of back hauls but weighing options of having it shipped versus buying a trailer and hauling ourselves. We are still coordinating the delivery of the surplus transmission poles and conductor. We will use the GID pasture leased by Morris to use as a laydown area. See the M.R. for further details and pictures of the 3 used cranes GID is looking into potentially buying. Brief discussion followed on the benefits and downfalls of each.

Monthly Financials & 2021 Budget: See the Warrants list, Accounts Payable and Receivables List, attached. \$62,000 collected for May and June for Turnbull Hydro electricity generation.

GID Infrastructure: See the M.R. for current and planned infrastructure projects. SRS D-21 drain to be filled in after the water season shuts off. Willow Creek stabilization berm repair is done. J-Wasteway Facility, nothing new, but still awaiting the \$125,000 DNRC grant agreement and we will need to complete it by Spring of 2022.

Title Transfer: Draft memorandum of agreement is still in progress. Manager Juel met with 3 BOR members on August 3rd. Manager Juel was encouraged to reach out to congressional staff to have the original authorization for the Sun River project to include hydropower generation.

GID O&M Projects: See O&M Foreman's List for the month, as well as maintenance items in progress or planning which are detailed in the M.R. also. Crew needs to generate some more crushed base course road mix and drainage aggregate. Eric Mayer will be meeting the contractor next week to visit about crushing needs. On July 15th, we submitted an application to receive ARPA funds on the Tunnel #3 Roof Collapse project. Should hear back this month.

Grazing Lease Issues: Nothing new on any grazing pastures.

Miscellaneous: Still no word on the WaterSmart grant application submitted on March 18th for \$75K.

Short-Term and Long-Term To-Do-Lists: See the M.R. for details.

Agenda Items:

- 1) Board to decide on the 2022 O&M Rate. Vice President Norris suggested raising it from \$23.50 to \$25.00. Commissioner Brady voiced that he doesn't feel that is enough to off-set anticipated expenses and believes that the Board should vote for a \$3.00/acre increase. Commissioner Gulick motioned to raise the rate to \$25.50, as we need to buy 2 new excavators. Vice President Norris seconded the motion. Commissioner Brady opposed, which caused President Brunner to have to vote. He voted to approve the motion, and the motion carried, the O&M rate for 2022 will be \$25.50, which is an 8.5% increase.

Public Comment:

- 1) Al Rollo was not present.
- 2) Tracy Wendt with SRWG then addressed the Board to give an update on the Muddy Creek gauge, see handout provided. She informed the Board that next Water Quality Management meeting will be held on October 20th to discuss such topics as, diversions off the river, how flood water is affecting ground water tables, versus pivot use, return flows, etc.
- 3) Lee Signalness then addressed the Board to inform them that the FSID monthly Board meeting will be this Thursday at 7 p.m. to discuss whether or not they will raise the O&M rate for the upcoming year. The 2 new ditch riders are proving to be the best that FSID has ever had. The diversions out of the river are less than usual.
- 4) Commissioner Brady then added that the Board needs to be thinking about whether GID should rent an excavator this Fall to clean canals and ditches which would be around \$6,000 to \$7,500/per month, or should we consider putting the money towards buying a new needed excavator with a bucket.

Commissioner Brady moved to adjourn the meeting and Vice President Norris seconded. All in favor and the meeting is adjourned at 8:55 p.m.

Board President

Board Secretary

Recap of Board Action During the Meeting:

- 1) Board voted to raise the O&M Rate for the 2022 year from \$23.50 to \$25.50.

AGENDA FOR: Regular meeting Tuesday, August 10th, 2021 at 7:00 PM

CALL TO ORDER: Meeting called to order by Board President, Tim Brunner.

Public Comment: Prior to each agenda item...limited to 5 minutes...any Board action necessary will be addressed at the next regular meeting.

APPROVE MINUTES: July 13th Regular Meeting Minutes.

REVIEW AND APPROVE BILLS FOR PAYMENT—Approve and sign July warrants and recap list.

PARTIES PRESENTING ISSUES: Terry Krause is filing a claim with our insurance regarding loss of production due to an issue on Drain N-N-1

CONTRACTS TO EXECUTE: None

MANAGER's REPORT

AGENDA ITEMS:

- 1) Board to Decide on O&M Rate for the 2022 Water Season
- 2) FYI to Board Regarding New Pivot Installations

PUBLIC COMMENT

- Alan Rollo
- SRWG, Tracy Wendt
- Lee Signalness

From: Erling A. Juel, P.E., District Manager

Subject: Manager's Report 08/10/21

1) RESERVOIR & RIVER OPERATIONS AND PROJECTIONS AS OF 08/10/21

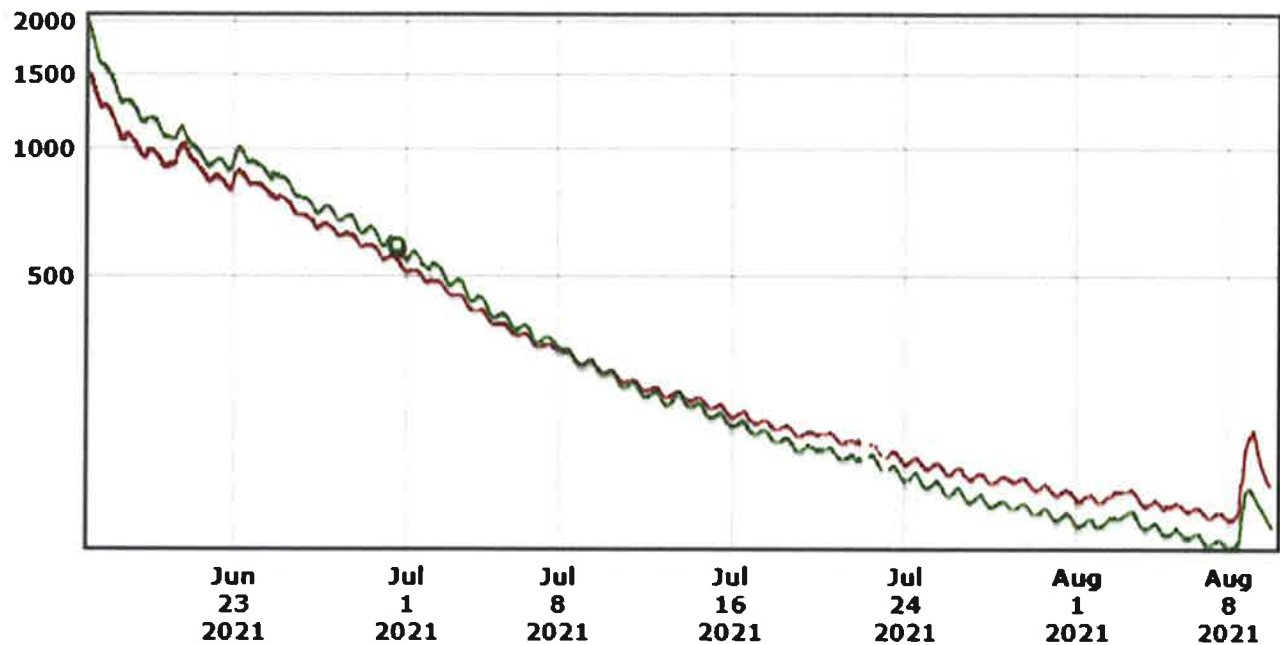

A. Reservoir operations and levels over the last 5 days were:

- Gibson Reservoir: 25,600 Ac-ft, 26% Full & 83% of Normal, Dropping 3'/day
- Gibson Inflows: varying from 220 to 385 cfs, 51 to 99% of Normal,
- Gibson Outflows: from 1,402 to 1,409 cfs,
- Willow Creek Reservoir: 14,300 Ac-ft, 45% Full, 69% of Normal
- Willow Creek Outflows: 160 to 190 cfs,
- Pishkun Supply Canal: 1,312 cfs, at capacity,
- Pishkun Reservoir: 39,000 Ac-ft, 83% of Full, 98% of Normal, FILLING
- Pishkun Releases: 1,130 to 975 cfs, Dropping

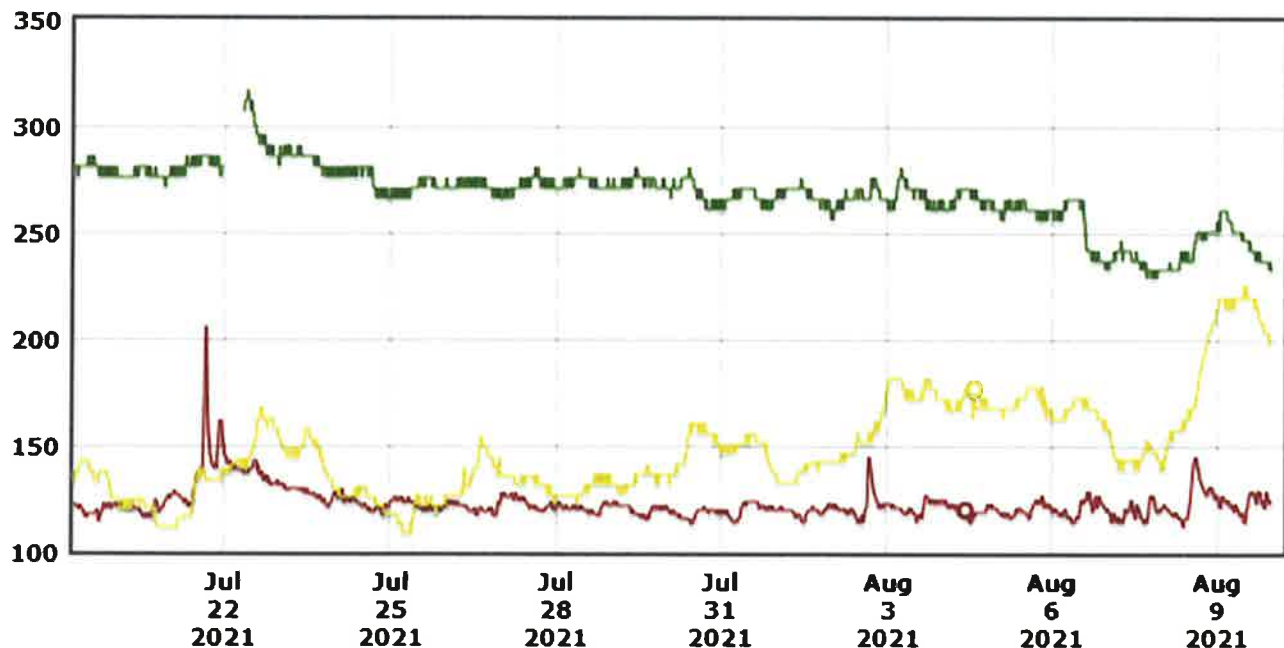

B. National Climate Prediction Center is predicting above normal temps and below normal precipitation for August through October. While November to January is predicted to be back to normal temps and slightly above normal precipitation.

INFLOWS – NORTH & SOUTH FORKS OF SUN RIVER

SUN RIVER FLOWS – BELOW DIVERSION, BELOW WILLOW CREEK & SIMMS BRIDGE

C. In Summary.....

1. Expecting to run-out at Gibson on August 17th or 18th.
2. Pishkun Reservoir, a day or two after Gibson.
3. Need to address Board's intent to address the Drain Season.

2) GID WATER RIGHT ISSUES

- A. The Preliminary Decree for Basin 41K (Sun River) is still on-going.
- B. We filed objections on some senior rights on Willow Creek above the Reservoir.
- C. Still waiting a summary of water rights downstream of Willow Creek Reservoir from our attorney.

3) STAFF UPDATES

- A. The Weed Spray Foreman is still out on Workman's Compensation. Now it is looking he may be back just after Labor Day.
- B. Hired 2 new Ditch Riders. Chaz Keller started on July 29th and Tony May will start on August 23rd. May need to hire a 3rd ditch rider.
- C. Nothing new to report regarding employee who filed a Union hiring grievance against GID regarding my selection for the Heavy Equipment Operator. **Need to go into Closed Executive Session if there is anything to discuss.**
- D. Two employees contracted CoVid, both quarantined, one is better and other is still having issues.
- E. Terminated our seasonal mower.

4) GIS MAPPING, PLATS, DATA BASE & CERTIFICATION UPDATES

- A. Reclamation decided to pull the \$25K grant to help cover GIS mapping efforts.
- B. Running usage cards for producers approaching their 1.5 ac-ft allotment.
- C. Nothing new to report regarding the GID landowner who filed a marital status discrimination complaint against GID regarding the 960-acre limitation policies. Turned it over to MACO legal staff to respond. MACO worked with our attorney and has sent a response to the MT Dept of Labor & Industry.
- D. Time to think about raising the assessment to keep pace with expenses and to do make some progress on our on-going projects. GID is below the State average of \$30.65/acre for 2020.

5) FARM UNIT OPERATIONS

- A. **No Major Farm Unit Operations**
- B. Several pending for next month.
- C. 2 New Pivots, FYI
 - 1. Open Gate Ranch, FU 144 & Fu 144.3 – Increase in irrigation coverage but still less than the assigned assessment
 - 2. Open Gate Ranch, FU 129 – Reduction in irrigation coverage and far less than the assigned assessment

6) DNRC STATE LAND WSCs

- A. Negotiations are on-going with the State of Montana regarding the conversion of WSCs acquired by water users for use on State Trust Lands
- B. This month we had some back and forth regarding language and wording of an agreement. State is having issues understanding our world turns.

7) WILLOW CREEK FEEDER CANAL MAINTENANCE & LAWSUIT

- A. Still no official word from the judge regarding the oral arguments held on Nov. 19th, 2020, addressing whether MT FW&P can be compelled to be a plaintiff and whether the BOR needs to be part of the lawsuit as a defendant. Both sides submitted summary briefs providing wording should the Judge decide in their respective favor.
- B. Met with US Army COE rep in the field on August 5th to determine whether the WCFC is or is not a "relocated stream" thus requiring COE's jurisdictional involvement. Requesting an irrigation infrastructure exemption.
- C. Sent drawings to the Reclamation for their review.
- D. **A closed executive session should be called if the Board wishes to discuss strategy or specific details of the case.**

8) GID VEHICLES & HEAVY EQUIPMENT

A. Short-Term list 2021-2022

1. Replacing 2 ditch rider pick-ups. Looking now at placing order in a couple of weeks or first August when the 2022 Fleet Program starts.
2. Still looking to replace over-sized bucket on JD excavator with smaller version having a thumb
3. Replace small CAT excavator with new one also having a thumb
4. Tracking down on a possible goose neck trailer.

B. Long-Term List 2022 and beyond

1. Need to replace 2 dump trucks; 1997 has 139,500 miles & 1998 has 135,000 miles and mounting (within 5 years)
2. Large excavator (within 3 years)
3. New Dozer, sell D-4 & D-6 and buy new D-7 (within 4 years)

9) OFFICE IMPROVEMENTS & GENERAL ADMINISTRATION

- A. Mark Biegler's trial has been rescheduled for December 6th of this year.
- B. State is seeking someone from GID to provide testimony.

10) HYDRO UPDATES

A. Hydro Power Development Strategy –

1. Still working with SREC to secure transmission easements. Participated with SREC tour on July 30th to view the transmission route and the generation sites.
2. Joined a petition protesting MTPSC's decision to allow NWE to charge QFs for perceived upgrades necessary to support energy purchase from a QF.

B. Arnold Coulee LOPP –

1. Sorenson Engineering has yet to start working on the drawings. Preliminary design has focused on the likely grade and layout as well as initial thoughts about the size of the generator.
2. Energy output potential is 3.4MW but QF regulations cap output at 3.0MW when using NWE's avoided cost rates. Greater than 3MW kicks us into a rate negotiation phase.
3. On-going discussions with BOR's grant manager regarding our \$2M grant. Expecting a Grant Agreement by end of August. Waiting for drawings to be completed so that we can finalize the cost estimates for the grant agreement.
4. Submitted supporting documents to DNRC and am expecting the State's Grant Agreement by end of August.
5. Argue with the MT Dept. of Commerce, Board of Investments whether or not GID is eligible to receive InterCap loans. Got lawyer involved and now will be submitting an InterCap loan application this month. Current rate is 1.65% but does change annually. The loan will be used to offset GID's local match requirement.
6. On July 15th, submitted an application to receive ARPA funds. Should hear back a preliminary indication sometime this month.
7. Still negotiating with BOR to determine what level of environmental and historical cultural documentation is necessary. Awaiting preliminary drawings.

8. Nothing new on the penstock. Need to finalize shipping options. We either pay to ship (+/- \$13k/load) or buy an extendable trailer and do it ourselves.
9. Still coordinating the delivery of the surplus transmission poles and conductor secured from the cancelled Keystone pipeline project. GID is getting the poles for \$1,000 each and they normally cost \$4,400 apiece. Will cost about a \$100/pole to transport. Big Flat Electric is willing to sell us up to 360 poles. That's a \$1,224,000 savings. The wire is stock piled in Opheim and GID's price is \$1.00/LF. This wire is bigger but less expensive than we budgeted. Assume GID can do the hauling but need to coordinate someone to load reels for us in Opheim. Will use a GID pasture out west as a lay-down area. Need to build pole bunks.
10. Need to buy a used crane to help unload and load pipe, pick and set pipe, placing the turbine and generator, and other items for the next two jobs. The expected costs to hire crane service for Arnold Coulee alone would be far greater than \$65,000.
 - i. Load-tested a 50-ton hydraulic crane for \$50,000. Reasonable shape but limited capacity and range.
 - ii. Checked into a 70-ton hydraulic crane for \$100,000 based out of Gillette, WY. Well used and still used.

- iii. Came across a 82-ton lattice boom crane out of Bozeman for around \$20,000. A GID wateruser used be the main crane operator for Sletten Construction has offered to check out crane, break it down, set it up, operate and provide training.

- C. Gibson Hydro –
 - 1. **Nothing new.** Nothing from our partner Tollhouse.
- D. Johnson Drop –
 - 1. **Nothing new.**

11) MONTHLY FINANCIALS & 2021 BUDGET

- A. Total of the account receivables for July was \$2,985.
- B. Accounts payable (warrants) for July totaled \$193,005 and \$62,365 for two payroll periods.
- C. We received \$62,000 for power generation at Turnbull for May and June.

12) GID INFRASTRUCTURE PROJECTS- Current or Planned

- A. Closing of SRS D-21 Drain for MDT Road Improvements
 - 1. Began this work for MDT to complete this drain closure. Will need to process and crush some more gravel to produce more drainage aggregate.
- B. Hwy 89 Ditch Crossings
 - 1. **Nothing new.** Still no word on the proposal I wrote to MDT regarding some options of with their proposed road improvements and crossing replacement.

C. Willow Creek Spillway Repair –

1. **Nothing new.** No word on Reclamation's site visit and recommendations. Hopefully, this will be a SOD issue and GID will not have to pay, but in fact, get paid to do work.

D. Willow Creek Stabilization Berm Repair –

1. **Finally fixed.** Decided to not wait for BOR to provide guidance.

- E. J-Waste Way Facility –
 - 1. **Nothing new.** Awaiting the \$125,000 DNRC grant agreement. Need to complete by Spring of 2022.
- F. Sun River Bridge Replacement –
 - 1. Update – Our contact at BOR said that 33 FLAP applications were received, and a couple might be considered worthy competition. Should hear final word this Fall. Again, we requested approximately \$9.2M to compliment the FLTP award of \$1.77 million already awarded.
- G. SRS 71 Check Replacement and Reregulation –
 - 1. **Nothing new.** Awaiting the \$125,000 DNRC grant to start construction for next Fall. Need to retool the project based on reduced funding.

13) TITLE TRANSFER

- A. Draft Memorandum of Agreement still not developed.
- B. I sent a summary of GID's concerns, goals, and objectives.
- C. Had another scoping meeting with 3 Reclamation staff on August 3rd. We toured the project, specifically Pishkun Reservoir and everything upstream.
- D. Decided to prepare a request to our congressional staff to have the original authorization for the Sun River Project amended to include hydropower generation.

14) GID O&M PROJECTS

- A. See O&M Foreman's list for this month.
- B. Need to generate some more Crushed Base Course (road mix) and drainage aggregate. Eric will be meeting contractor next week to visit about crushing needs.
- C. Maintenance Items In-Progress or In-Planning.
 - 1. Tunnel #3 Roof Collapse –
 - i. On July 15th, submitted an application to receive ARPA funds. Should hear back a preliminary indication sometime this month.
 - ii. Tried looking at other alternatives other than a steel liner.
 - iii. Need to look at repair once PSC is shut-off.

15) GID GRAZING LEASE PROGRAM

- A. Nothing new on Pastures.

16) MISCELLANEOUS

- A. No word yet on WaterSmart grant application submitted on March 18th for a \$75K to fix lower GSC lining issue. No word yet.

17) SHORT-TERM TO DO LIST – AUGUST

- Finalize DNRC Lawsuit
- Buy Crane
- Finalize penstock hauling options, buy trailer if necessary.
- Submit InterCap Loan Application to DOC-BOI
- Request To Amend Sun River Project Authorization
- Need to get BOR review of WCFC proposed maintenance activities.
- Get preliminary drawings of Arnold Coulee layout from Sorenson Engineering
- Finalize Tunnel # 3 Repair Options
- Work on Hydro Study

18) LONG-TERM TO DO LIST – SEPTEMBER & ON

- Obtain grant agreements and long-term financing for Arnold Coulee.
- See long-term repair list for other items.
- Develop a 5yr/10yr Strategic Plan (Conservation & Management Plan)

NEXT GID BOARD MEETING SEPTEMBER 14th @ 7PM

X:\Admin\Manager\Reports\2021\2021-08-10 Managers Report.docx
