

Greenfields

IRRIGATION DISTRICT

On Tuesday, July 21st, 2026, at 6:00 P.M. the Greenfields Irrigation District (GID) held its Monthly Board meeting. The following are the minutes taken from that meeting. Those in attendance were: President Chase Brady, Vice President Chris Ostberg, Commissioners Pat Brosten and Tony Clark. Commissioner Brunner was absent. District Manager Erling Juel and Board Secretary Jenny Gulick were also present, along with GID Employees Eric Mayer, Tony May and Cory Copenhaver. Tracy Wendt with SRWG was in attendance. Jason Hahn with the BOR was not present.

The meeting was called to order by President Brady at 6:01 P.M. President Brady reminded the group that public comment would be accepted but held to a maximum of 5 minutes per individual.

Board to Approve Meeting Minutes and Monthly Warrants: The first item of business was to approve the minutes from June 16th, 2026, Regular Meeting and Executive Session. Vice President Ostberg moved to approve the minutes, and Commissioner Clark seconded. All were in favor and the motion carried. The June warrants were then reviewed with brief discussion regarding the warrant for the 2026-2027 insurance renewal, as well as the WWC warrant for 2 planning grants that we will receive reimbursement for. Manager Juel explained that Eric had purchased the excavator bucket with GID's Visa, so that is a big part of the Visa bill. Office Manager Gulick informed the Board that the GID warrant was to transfer funds from the county account to the TT&L account for payroll taxes. Commissioner Brosten moved to approve the warrants and Commissioner seconded. All were in favor and the warrants were approved.

Parties Presenting Issues: None.

Contacts to Execute: None.

Manager's Report:

Reservoir and River Operations: See M.R. for full details. Gibson is 83% full, which is about 110% of normal for this time of year, with Pishkun Reservoir having similar levels, and Willow Creek slightly lower at 64% full, which is 83% of normal. The National Climate Prediction Center is now predicting slightly above normal temps and normal precipitation for August through October and November to January predicted to be above normal temps and slightly below normal precipitation. Manager Juel's prediction for the end of season will be Gibson to run out of water by August 28th, with Pishkun to follow a week later, if the current delivery load remains steady. FSID plans to shut off on September 1st to start the construction on their siphon.

Water Rights: Nothing new.

GID Staff Updates: Mr. Mann with the Teamsters has sent GID a proposal from the Union Members, which has been forwarded to the Board. The Board had previously discussed this matter during the Executive Session Meeting that preceded this meeting. Dado will be leaving us on the 2nd of August and Drew will then cover Divisions 1 and 2. He has expressed his interest in returning for next year's water season only.

Office Improvements & General Administration: The Annual Water Users Meeting will be moved to October 20th, due to the remodeling of the Community Hall that took place this Spring. The proposed changes to the Board Policies have been tabled to allow for further time for review and input. Office Manager Gulick provided the Board with some options for the replacement of the office copier, which is over 11 years old and

is quickly becoming obsolete, as new parts are no longer available. We need to start thinking about next year's assessment rate, as figures need to be provided to the county by the end of August.

GIS Mapping, Plats, Database & Certification Updates: No significant updates.

Farm Unit Operations: No FU alterations this month.

Monthly Financials & 2025 Budget: See the M.R. for further details regarding accounts receivable and payable for June. Our 2024 Annual Audit is being finalized, and Manager Juel and Office Manager Gulick are reviewing the draft. The Board will receive the final draft at next month's meeting for review, as well as consider the proposal provided by Douglas Wilson to perform the 2025 Fiscal Year Audit. We received the first Turnbull Hydro disbursement of \$35,000 for May.

GID Vehicles & Heavy Equipment: The transmission in Mark Dale's truck is out, but we replaced the motor in it 3 years ago. It will cost \$5,200 to replace the transmission and front end. Manager Juel's truck is now starting to burn oil. The Board decided to proceed with repairing Mark's truck and putting it to use here on the project, then purchasing Mark a new truck. We still need to replace our fleet of aging dump trucks.

Spencer Pearson Lawsuit: We are still waiting to hear from the Court on our motion to compel filed on April 7th, so currently there is no status conference or hearing date scheduled. Crum and Forster have been released from any claim that they have a duty to defend us in the state action, on the terms that they will not seek recoupment of defense costs, but they will pay the last remaining invoice. Going forward, GID will be responsible for all legal costs, which is not something that was figured into our current budget.

Willow Creek Feeder Canal Improvements: We still have no word on the draft MOU from BOR regarding the on-site meeting with BOR and Plaintiffs held on February 27th to discuss access, maintenance, and the future operation of the WCFC. BOR has informed Manager Juel that its representatives are having a hard time connecting with the Plaintiffs. The DNRC grant sponsored by the Lewis and Clark Conservation District is officially terminated.

Hydro Updates: General: See the M.R. for details. Arnold Coulee- Power Purchase Agreement: We are planning an appropriate response to Northwestern's intent to update the QF-1 Rates filed in May. Transmission Design & Construction: The 69-kV transformer is scheduled to arrive on site on August 5th. M&D will then haul it to Arnold Coulee for us. SREC Interconnection- We still need to get the wheeling agreement finalized with SREC. PPA- Per the Board's request, we filed a petition with the PSC for ruling on the Bole station POD. A draft schedule has been proposed, see handout. Construction- We hired a 2 to 4-person crew to help with the construction. Manager Juel is working on obtaining a quote for the PEMB with GID crews doing the erection of the building. Crews are planning to complete the final pour on the retaining walls and north side of the building on Thursday. Pishkun Inlet Hydro: The LOPP agreement has been finalized, and we are ready to begin construction. We have asked for an extension of the State and Federal grants. Apgar Engineering is working to procure materials needed for construction this fall. Gibson Hydro: Ted and Rose Sorenson will be here on Thursday, and Manager Juel will accompany them up to the site, if any Commissioners want to come along. Manager Juel provided the Board with a handout summarizing the hydrological data regarding potential power generation looking at both the lower outlet works and the power penstocks, see handout. Pishkun Outlet: BOR has indicated that there may be some concern about the BIL loan secured for the project if it is not closed on and initiated. DEQ might have another Energy Study available.

GID Infrastructure Projects: For Current and Planned, see the M.R. Nothing new to report on the Hwy 89 Ditch Crossings or Willow Creek Spillway Repair. Tunnel #3: The final HAER report has been submitted for BOR and MT SHPO final approval. See the M.R. for a list of the current status of materials procured and the

fabrication going on. J-Wasteway: Manager Juel reached out to our water rights attorney, and she recommended Hydrosolutions as a water rights specialist. He also informed the Board that he had received an email from Republican Russ Miner that DNRC is considering GID's arguments for regulation ponds and how they do not necessarily constitute a storage unit.

O&M Projects and Update: O&M Foreman Mayer informed the Board that the crew has cleaned out 3 or 4 drains this month. The McAlpine pump back may need to be reconfigured this fall after the water season.

Title Transfer: Nothing new to report.

GID Grazing Lease Program: Pasture leases are up for renewal this Fall, so we need to start thinking about a format and procedure.

District Modernization Effort with FCA: The next item is to develop a Preliminary Investigation Feasibility Report (PIFR) which will begin the process of high-level funding opportunities.

Groundwater Study with MBMG: Manager Juel informed the Program Manager of the likelihood of our season going into September.

Miscellaneous: The District is working with the SRWG on a planning study for the Floweree Feeder Canal involving BO's diversion dam and headworks, as well as the rehabilitation of portions of the Muddy Creek. Tracy will give an update during the public comment portion of the meeting.

Short and Long-Term To-Do Lists: See the M.R. for details.

Agenda:

- 1) Board to review and discuss proposed Board Policy amendments. It was decided to table this item until September's meeting to allow more time for review and thought. Erling will provide the Board with another copy of the amendments.
- 2) Board to discuss and decide a time to meet with the Union Representative to begin negotiations. The Board met preceding the meeting and decided to offer a counterproposal to the Union's request. We will communicate via email about the proposed wage increase, as well as open discussion about the potential of adding a Union position for the Operations Engineer.
- 3) Board to discuss and decide on offering excess water and/or raising the allotment to 2 CFS. A brief discussion is had about the pros and cons of raising the allotment to the normal 2. Commissioner Ostberg made a motion to raise the allotment to 2 CFS with no excess water and Commissioner Brosten seconded the motion. All in favor and the motion carried.

Public Comment: Tracy Wendt with the SRWG gave the Board a brief update. She informed the Board that Cole Peebles is overseeing the engineering planning of the Floweree Feeder Canal project and things are not going as smoothly as hoped. She then went on to the Muddy Creek Stream Restoration project and explained that its purpose is to reduce erosion. They have a lot of outreach activities planned for this year and they hope to hire an outreach coordinator in the near future. October 15th is their H2O Management Working Group.

Jason Hahn was not present.

Commissioner Clark moved to adjourn the meeting and Commissioner Brosten seconded. All in favor and the meeting was adjourned at 7:15 P.M.

Chase A. Brady

Board President

Board Secretary

Board Action Recap:

- Board tabled the review and discussion of the proposed Board Policy amendments to September.
- Board moved to offer the Union a counterproposal, as well as begin discussion on adding a new Union position, Operations Engineer.
- Board moved to raise the current allotment to 2 CFS, but to not allow excess water.

AGENDA FOR: Greenfields Irrigation District's Board Meeting: Tuesday, July 21st, 2026, at 6:00 P.M.

CALL TO ORDER: Meeting called to order by Board President, Chase Brady.

Public Comment: Prior to each agenda item...limited to 5 minutes...any Board action necessary will be addressed at the next regular meeting.

APPROVE THE MINUTES: June 16th Regular Meeting Minutes and Executive Session Minutes to be approved by the Board.

REVIEW AND APPROVE BILLS FOR PAYMENT—Approve June warrants and recap list.

PARTIES PRESENTING:

CONTRACTS TO EXECUTE:

MANAGER's REPORT

AGENDA ITEMS:

- 1) Board to review and discuss proposed Board Policy amendments.
- 2) Board to discuss and decide a time to meet with the Union Representative to begin negotiations.
- 3) Board to discuss and decide on offering excess water and/or raising the allotment to 2 CFS.

PUBLIC COMMENT

- SRWG, Tracy Wendt to give the Board a brief update.
- Jason Hahn with the USBR to give the Board a brief update.

Date

To: GID Commissioners
Jenny Gulick, GID Board Secretary

From: Erling A. Juel, P.E., District Manager

Subject: Manager's Report to GID Commissioners – 07/21/26

1) RESERVOIR & RIVER OPERATIONS AND PROJECTIONS AS OF 07/21/26

A. Reservoir operations and levels over the last 5 days were:

- Gibson Res: 82,000 Ac-ft, 83% Full, 133% Normal,
- Gibson Inflows: varying from 550 to 750 cfs, 85% to 110% of Normal,
- Gibson Outflows: +/-1355 cfs,
- Willow Creek Reservoir: 20,200 Ac-ft, 64% Full, 83% of Normal,
- Willow Creek Reservoir Inflows: +/-10 cfs
- Willow Creek Reservoir Discharges: 200 to 220 cfs
- Pishkun Reservoir: 22,700 Ac-ft, 83% Full, 112% of Normal,
- Pishkun Reservoir Inflows: +/-1,330 cfs
- Pishkun Reservoir Discharges: 1,400 to 1,600 cfs,

B. The National Climate Prediction Center is now predicting slightly above normal temps and normal precipitation for August through October. November to January is predicted to be above normal temps and slightly below normal precipitation.

Archive Data From 1-OCT Through 30-SEP
Plotted 07/21/2026 14:19 (Provisional Data Subject to Revision)

Archive Data From 1-OCT Through 30-SEP

Archive Data From 1-OCT Through 30-SEP
Plotted 07/21/2026 14:17 (Provisional Data Subject to Revision)

Archive Data From 1-OCT Through 30-SEP
Plotted 07/21/2026 14:21 (Provisional Data Subject to Revision)

In summary.....

1. Next 3 months will have relatively normal climatic conditions.
2. Briefly turned on the WCFC as the late June rain event refilled Gibson and reinitiated reservoir spilling. The WCFC ran about an additional week.
3. The above-mentioned precipitation event also decreased the demand for irrigation water out of Pishkun and subsequently the PSC had to be turned down as Pishkun Reservoir refilled.
4. Based on an evaluation of all the available data, I now predict that Gibson Reservoir will run out on or about **August 28th**, and Pishkun Reservoir will last another week.
5. Fort Shaw is currently planning on ending their season on September 1st.

2) GID WATER RIGHT ISSUES

A. **No update.**

3) STAFF UPDATES

- A. Mr. Mann with the Teamsters Union has sent GID a list of the workers' demands entering the labor contract talks. The demands were forwarded onto the Board.
- B. Div. 1 Rider will be leaving at the end of next week. Wants to come back next year.

4) OFFICE IMPROVEMENTS & GENERAL ADMINISTRATION

- A. Annual Water Users Meeting will be moved to October since the Hall is still being renovated.
- B. Proposed changes to the Board Policies have been tabled. They still need to be reviewed, discussed, and approved.
- C. Office Manager Gulick has provided some options to replace the office copier, which is over 11 years old.
- D. Need to start thinking about next year's allotment given labor negotiations and other looming issues.

5) GIS MAPPING, PLATS, DATA BASE, CERTIFICATION, & ASSESSMENTS

A. No significant updates.

6) FARM UNIT OPERATIONS

A. **No FU Alterations This Month**

7) MONTHLY FINANCIALS & 2026 BUDGET

- A. The receivables for June totaled \$10,587.
- B. Accounts payable for June totaled \$365,591 for the warrants as well as \$78,064 for salaries comprising two pay periods.
- C. Our 2024 Annual Audit is very close to being finalized. Jenny and I are checking some final details. The plan is to submit the Report to the Board for approval at the next Board meeting in August. Asked for a proposal to get started on the next Audit.
- D. Received the 1st disbursement from Turnbull Hydro LLC for May, \$35,000.

8) GID VEHICLES & HEAVY EQUIPMENT

- A. Mark's vehicle still needs replacing, a 4x4, ¾-ton.
- B. The Manager's vehicle also needs to be replaced soon. +204k miles, burning/using oil.
- C. We also need to develop a plan to replace our fleet (3) of +25-year-old dump trucks.

9) PEARSON LAWSUIT, ROUND II

- A. Still waiting for the Court to set a date for the Status Conference and a hearing date for our motion to compel filed with the Court on April 7th.
- B. Crum Forster's attorney proposed settlement release to define the terms of the Federal dec action dismissal. Remember that CF sued GID claiming they should not have to participate in defense costs. GID is releasing CF from any claim that CF owes a duty to defend the underlying state action, and CF is foregoing recoupment of defense costs in defending GID in the state action. Also, they agreed to pay the last invoice but no more. Steph has marked up their proposed term letter.
- C. Going forward, GID must pay its legal fees. **This was not in GID's budget.**
- D. With the deceleration of progress, we will have plenty of time to revise policy language. Legal counsel would like us to review the proposed amendments.

10) WILLOW CREEK FEEDER CANAL IMPROVEMENTS

- A. Still no word on the draft MOU from BOR regarding the on-site meeting with BOR (Newman & Gomer) and Plaintiffs (2 Neals and Troy) held on February 27th to discuss access, maintenance, and the future operation of the WCFC. Apparently, BOR is having difficulties connecting with Plaintiffs.
- B. The DNRC grant sponsored by the Lewis and Clark Conservation District is officially terminated.

11) HYDRO UPDATES

- A. General – Regarding GID's fight with NWE's intent to update the QF-1 Tariffs.
 - 1. **Last Activity** - We filed a Motion for Reconsideration as did NWE. The PSC filed for a continuation. In May Northwestern filed an intent to update the QF-1 Rates. We are planning an appropriate response.
- B. Arnold Coulee LOPP –
 - 1. **Transmission Line** –
 - Final connection to the site transformer is still several months away.
 - The 69-kV transformer is scheduled to arrive on site on August 5th.
 - 2. **SREC Interconnection & Transmission Agreements** – Sent an email to SREC asking to resume finalization of the Agreement.
 - 3. **Power Purchase Agreement** – Discussion and negotiations with NWE, SPP, & WAPA are still on-going.
 - Per the Board's request, we file a petition with the PSC for a ruling on the Bole Substation POD. Only Northwestern Energy responded to GID's petition. A Draft schedule has been proposed. **See Handout.**
 - 4. **Funding** –
 - We have exhausted all available funding sources.
 - 5. **Construction** –
 - We hired a Contractor to assist with construction activities while the GID crews focus on delivering water. A 2 to 4-person crew will worked two to five days per week. A little slow at first but getting better.
 - Working on obtaining a quote for the PEMB. GID crews would do the building erection.
 - Within 3.5 feet vertically from the interior finished floor elevation which gets very crowded with rebar and electrical conduit.
 - Trying to complete the final pour on retaining walls and north side of building foundation wall this Thursday.

C. Pishkun Inlet Hydro –

1. **LOPP** – Agreement Finalized.
2. **NEPA Compliance** – Completed and NTP granted from BOR.
3. **Funding** –
 - Had to request a contract extension from MT DNRC. **See Handout.**
 - Already received a contract extension from BOR for the WaterSMART grant.
4. **Transmission Design & Construction** –
 - Procuring materials. Construction will start this Fall. We are only allowed to work from October to March each year. Just ordered 120 poles.
 - Breaker Substation west of Jackson's Corner. Procuring materials and equipment for the substation as well. Four laminated termination poles already on-site. Took delivery of 2 sets of air-break switches. Meters and breakers are on back order.
 - Final Tie-In at Jackson's Corner. This work is nearly completed.
5. **Power Purchase Agreement** – Have not started this task.
6. **Design Drawings** – Nothing new.
7. **Turbine-Generator Fabrication** – Turbines all paid for. Draft tubes on site.
8. **Site Construction** – With the LOPP fully executed, we can commence construction activities once the Pishkun Supply Canal shuts off.

D. Johnson Drop –

1. Received an updated proposal to provide design services from Sorenson.
2. Will be applying for planning grant for to revamp the old open chute into an emergency bypass structure.

E. A-Drop –

1. Received a proposal from Sorenson to provide design services.
2. Will be applying for planning grant for to replace the old open chute with a new pipe drop.
3. Need to file the FERC 556 Form.
4. Still waiting for the Cultural Resources study which is well overdue.

F. Gibson Hydro –

1. The aerial surveying through the canyon has been completed and distributed to the Gibson Hydro Team.
2. I have summarized the hydrologic data regarding potential power generation looking at both the lower outlet works and the power penstocks. **See handout.**

3. Meeting with Team Sorenson this Thursday. Will visit Gibson and discuss the results. **Do any Commissioners wish to attend?**
4. First quarterly progress meeting with MT DEQ was held on June 29th.
5. The overall study must be finished by March 2027.

G. Mary Taylor Facility –

1. Sat through a BABA webinar hosted by HUD regarding the grant award.
2. Asked Sorenson Engineering for a proposal to provide design services.
3. Also, we need to purchase the 5-acre parcel from Turnbull Hydro LLC.
4. I need to update the hydropower feasibility analysis and cost estimate once we collect one more year of flow data.
5. The Cultural Resources study has been approved and accepted by BOR.

H. Pishkun Outlet Replacement –

1. The Cultural Resources study has been initiated. Should have received it by now.
2. Waiting for another planning grant opportunity to kickstart preliminary engineering activities.
3. BOR indicates there may be a concern about the BIL loan secured for the project if it is not closed on and initiated.
4. Just heard that there will be another MT DEQ/DOE Energy Study NOFO like that is being done for Gibson. I will go after that for the Pishkun Outlet.

12) GID INFRASTRUCTURE PROJECTS- Current or Planned

A. Hwy 89 Ditch Crossings – **Nothing new.**

B. Willow Creek Spillway Repair – **Nothing new.**

C. Sun River Bridge Replacement

1. Projected Schedule –Overall schedule is in question.
 - Girder #6 was not damaged due to the recent accident during transport and was ultimately cleared for use.
 - However, three girders on west side had to be removed and reset.
 - These two activities have caused roughly a 4-week delay.

D. Tunnel #3 Rehabilitation –

1. The Final HAER report has been submitted for BOR and MT SHPO final approval.
2. Phase II material procurement and fabrication is on-going. Below is a status as June 30th.
 - a. All 47 of the 8' wide bottom sections are formed, fit and welded,
 - b. 18 of the 47 bottom sections are blasted and ready for painting,
 - c. 37 of the 94 side wall sections are formed and ready for blast and paint,
 - d. 10 of the wall sections are drilled, beveled and ready for forming,
 - e. 8 of the wall sections are drilled and ready for beveling, and
 - f. All 12 of the curved sections are cut (including anchor holes) and ready for beveling.

E. J-Waste Way Facility, Spring Coulee Headworks –

1. Reached out to our water rights attorney and she recommended a water rights specialists at Hydrosolutions. Sent him some background info and just today, I received a response but have yet to review.
2. The plan is to initiate the change of appropriation process so we can then file an objection.
3. Also, I received an email from Rep. Russ Miner that DNRC is considering GID's arguments for regulation ponds and how they do not necessarily constitute a storage unit.

F. SRS 71 Check Replacement and Reregulation, Phase 2– SRS Main Check

1. Due to the switch with J-Wasteway, this project will not start till after 2027.

13) TITLE TRANSFER

- A. **Nothing new.**
- B. BOR is encouraging GID to pursue Title Transfer of Pishkun Reservoir and the surrounding Federal land.

14) MISC ITEMS & GID O&M ACTIVITIES

- A. The stilling basin below the Johnson Drop was washing out.
- B. The drop on GM 100-4 washed out due to a piping failure.
- C. A recent thunderstorm caused some surface erosion on the downstream face of Willow Creek Dam.
- D. Several plugged drains.
- E. McAlpine pump back may need to be reconfigured after the water season.

15) GID GRAZING LEASE PROGRAM

- A. Our Range Rider is on the job.
- B. Pasture leases are up for renewal this Fall. Need to start thinking about the format and procedure.

16) DISTRICT MODERIZATION EFFORT WITH FCA

- A. The bi-weekly meetings with the FCA continue as necessary.
- B. The next item is to develop a Preliminary Investigation Feasibility Report (PIFR) which will begin the process of high-level funding opportunities.

17) GROUNDWATER STUDY WITH MBMG

- A. Informed the Program Manager of the likelihood of our season going into September.
- B. MBMG still collecting surface and groundwater data into the 2nd year and will continue to collect groundwater data until next Spring.

18) MISCELLANEOUS

- A. The District is working with the SRWG on a planning study for the Floweree Feeder Canal involving BO's diversion dam and headworks.
- B. GID is also involved with SRWG regarding the rehabilitation of portions of the Muddy Creek. Tracy can give an updates.

19) SHORT-TERM TO DO LIST – JULY

- Continue progress on Arnold Coulee PPA and PSC petition.
- Continue construction on Arnold Coulee.
- Continue the fight for J-Wasteway.
- Update the feasibility analysis, cost estimates, and construction schedule for the Mary Taylor project.
- Continue with Gibson Hydro Planning Study.
- Finish M Klinker letter.

20) LONG-TERM TO DO LIST – AUGUST & ON

- Finish the Metering Substation and the Transmission Tie-In at Hwy 287.
- Start the Pishkun Inlet Transmission Line in the Fall
- Obtain a Planning Grant for Johnson Drop, A-Drop, and Pishkun Outlet

NEXT GID BOARD MEETING AUGUST 18th @ 6:00 PM
